Custom Handcrafted
DAMASCUS STEEL KNIVES

Our Damascus Steel Knives are hand forged from 1074 and 15N20 (2% nickel) hi-carbon steel. During the forging process, the steel is folded to produce over 200 individual layers. All blades are flat ground, properly heat treated, polished, and then etched to bring out the contrasting layers which form the random Damascus pattern. Each knife features a full tang and will provide many years of outstanding service.

We finish each knife with a custom handcrafted handle made from one of our high quality hardwoods. Each handle is individually designed and crafted to meet the specific needs and desires of our customer.

Every knife is sold with a beautiful handcrafted sheath.

ABOUT OUR HANDCRAFTED KNIVES

Each knife is produced individually to your specifications. You can rest assured that your knife will be handcrafted to meet your individual tastes, needs, personality, and desires!

See a knife you like which is marked "Sold"?

No problem! While the knife pictured on our website may be unavailable, we would love to handcraft one for you which closely resembles the knife pictured. Of course, wood grain, burl, coloration, and figurative will vary somewhat from knife to knife.

Like the pattern or detail show on a handle, but you would like it in a different combination of hardwoods, carbon fiber, and accent liners?

No problem! Email us and let us know what you would like as we would love to handcraft a knife for you!

Want a particular handle but a different pattern for your knife blade?

No problem! We can craft your knife to be the exact combination of blade pattern and handle which you desire.
