## *Custom Handcrafted* **REDLINE HARDWOOD GRIPS**

### **"REDLINE" PREMIUM HARDWOOD GRIPS**

The next evolution in hi-tech hardwood grips.

Remember the muscle-car era, when "Redline" was pushing the limits? Our "Redline" series of hardwood grips are handcrafted to push the limits of high-end gun grip design and production.

When we construct a pair of "Redline" hardwood grips, we start with only the finest hardwoods, inspecting each piece individually so as to insure you the most distinctive grain, figurative, and coloration available. Then we carefully slab each pair of grips to make the most of the features available in the wood. Most importantly, we cut each PAIR of grips from a SINGLE slab so that the figurative and coloration remain constant throughout your pair of grips. After the wood blank has been cut, it is carefully bonded to one (or more) of our unique colored liners. Finally, each pair of grips is carefully shaped, sanded, and finished using a combination of high-tech and old-world techniques designed to provide you with an exceptional pair of grips.

Our "Redline" liners are available in black, grey, red, and white. Multiple layers of liner material may be combined in order to give you a truly outstanding and unique pair of grips. Let us know the combination of wood and liners you would like and we will craft a truly unique set of handgun grips for you!

**Big Leaf Maple Handcrafted Grips**

### **ABOUT OUR GUN GRIPS**

The photographs on these pages are representative of the grain, figurative, and coloration which is generally found in a particular species of wood. However, due to the natural variations which occur throughout a block of wood, each pair of grips will be unique. Our "standard" handcrafted gun grips tend to be a little thicker (typically 30% thicker) than the stock grips provided by most gun manufacturers.

Each sample grip is shown displayed on a "stock" 45 calibre handgun. However, we routinely design and handcraft grips for a wide variety of guns. Please contact us with your specific requirements and we will be happy to design a set of grips for your specific weapon. **GUNS ARE NOT INCLUDED WITH ANY HANDGUN GRIP ORDER!**

### **PREMIUM HARDWOODS**

Your handgun grips may be handcrafted out of any of the premium hardwoods shown below.

Amboyna Burl

Bubinga

Camphor Wood

Mexican Cocobolo

Big Leaf Maple
